## PROFILE

A second year Computer Science Engineering undergraduate student at Sathyabama Institute of Science and Technology with interests in Artificial Intelligence, Web Development and Mobile Application Development.
In my spare time I read, paint and listen to some music.

## SKILLS

- HTML
- CSS
- JAVASCRIPT
- PYTHON
- JAVA
- SQL
- GIT/GITHUB
- MARKDOWN
- UI/UX

## EXPERIENCE

### Participant @ Girl Script Summer of Code

Mar 2021 – May 2021

Translated complex technical information into an intuitive, clear format and researched and wrote technical articles related to computer science.

Communicated with project admins and mentors to translate project requirements into polished user interface designs.

### Technical Writing Intern @ GeeksForGeeks

Dec 2020 - Present

Utilized writing, editing and proofreading skills to produce engaging and error – free content.

Identified issues, analyzed information and provided solutions for problems.

Communicated with administration and reviewers for feedback and improvement.

### Technical Member @ Developers Student Club

Jan 2021 - Present

Learnt about a variety of technical topics and gained new skills through active workshops, webinars, events, talks, and project-building activities.

Applied new learnings to create better solutions for issues.

Currently working towards creating an Event Aggregator Platform.

## EDUCATION

### Sathyabama Institute of Science and Technology

2019-2023

B.E Computer Science Engineering

9.3 CGPA
